

SCENARIO

Forest Fighter is a non-profit organization founded in 2010. The main purpose of our organization is to protect existing forest areas and create a better future by creating new forest areas. Our organization has more than 10 thousand volunteers for this purpose. More than 500 thousand saplings were planted and new forest areas were created by getting sponsorship from 7 important companies. We want to highlight these numbers on our website and include the logos of the companies that sponsor us. We also want the purpose of our organization to be understood as soon as our website is accessed. We want green, which is the dominant color of our logo, to be the dominant color on our website as well. We want those who want to volunteer and those who want to donate to be able to do this easily on our website. Also, considering that people of all ages can visit our website, we want the site to have an easy design and be simple.
